### ***DETAILED ACTION***

1. This is in reply to the Appeal filed on May 02, 2008. Claims 1-27 are pending.

### ***Allowable Subject Matter***

2. **Claims 1-27** are allowed.
3. The following is an examiner's statement of reasons for allowance:
4. With respect to **the independent claims 1, 17, 21** the art on the record, namely

Frezza discloses the general subject matter recited in the claims.

However, a close review of the Frezza's reference revealed that, Frezza does not describe the limitation "**a network device deployed in a home environment/network and communicatively coupled to the communications network via the headend and wherein the headend is adapted to determine whether a request to access the network device is authorized**" as recited in claim 1. Furthermore, Frezza does not describe the limitation recited as "disposing a headend between a first network device and a second network device such that a communications path between the second network device and the first network device passes through the headend; and adapting the headend to determine whether the second device is authorized to access the first device" as recited in claims 17 and 21.

None of the prior art of record taken singularly or in combination teaches or suggests a particular and specific method for preventing unauthorized access to a network device as recited in claims 1, 17 and 21.

Art Unit: 2132

5. **The dependent claims which are dependent on the independent**

**claims 1, 17 and 21** being further limiting to the independent claims,

definite and enabled by the specification are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled "Comments on Statement of Reasons for Allowance."
